

General, Organic, Biochemistry

By Katherine J. Denniston, Joseph J. Topping, Danae Quirk Dorr

McGraw-Hill Education - Europe, United States, 2016. Paperback. Book Condition: New. 9th Revised edition. 274 x 233 mm. Language: English . Brand New Book. The ninth edition of General, Organic, and Biochemistry is designed to help undergraduate health-related majors, and students of all other majors, understand key concepts and appreciate the significant connections between chemistry, health, disease, and the treatment of disease. This text continues to strike a balance between theoretical and practical chemistry, while emphasizing material that is unique to health-related studies. The text has been written at a level intended for students whose professional goals do not include a mastery of chemistry, but for whom an understanding of the principles and practice of chemistry is a necessity. Designed for the one- or two-semester course, this text has an easy-to-follow problem-solving pedagogy, vivid illustrations, and engaging applications.
