BRYANT AND STRATTON S COMMERCIAL ARITHMETIC, VOL. 1 OF 2: DESIGNED FOR THE COUNTING ROOM, COMMERCIAL AND AGRICULTURAL COLLEGES, NORMAL AND HIGH SCHOOLS, ACADEMIES, AND UNIVERSITIES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Bryant and Stratton s Commercial Arithmetic, Vol. 1 of 2: Designed for the Counting Room, Commercial and Agricultural Colleges, Normal and High Schools, Academies, and Universities Every book - and especially every text-book - should have a twofold reason for its existence: first, a want which it is designed to meet, and, secondly, an adaptedness to supply that want. A work which meets these conditions needs no apology for its appearance. The preparation of the present treatise was undertaken at the earnest solicitation of Messrs. Bryant and Stratton. Their intimate acquaintance with the wants of business students, resulting from an extensive experience in Commercial Instruction, revealed to them an urgent demand for such a work, and suggested its general plan. True, there are some excellent works on arithmetic, in which considerable space is devoted to business forms and transactions. In no one of these, however, with which we are acquainted, are these subjects treated with sufficient fullness or thoroughness for commercial students. By searching through half a score of the best arithmetics now published, most of the information designed may possibly be obtained. The present treatise embodies this information in one volume, and presents, in part, our idea of what is needed. About the Publisher Forgotten Books...
