Reviews

Absolutely among the finest pdf I have got possibly read. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Broquard eBooks, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Windows MFC Programming I begins with the very fundamentals and, in a step by step, gradient manner, develops most all of the basic Windows programming techniques. There are often many different ways to accomplish the same task. So as you move from example to example, expect to see alternative approaches illustrated. Windows MFC Programming I is not a reference manual; rather, expect to see the whys and how comes that lie behind many of the approaches and techniques. It is my opinion that if you have a feel for what is really going on, you can do a better job of programming and debugging. The first three chapters present Windows C API (the programming interface); they are designed to get you used to programming in a message-driven style which is completely different from the normal DOS C++ style of programming. In chapter 4, the MFC OOP encapsulation of the Windows API is presented illustrating how the beginning features from the first three chapters are encapsulated. Through the next series of chapters, the GUI is introduced a step at a time, such as timers, colors, resource files, menu operations, icons, cursors, dialog operations, the use of global memory, the new file handling functions, image processing, for example. Tool bars and the status bar are presented next followed by the multiple document interface and clipboard operations. Sound and animation effects continue to explore the possibilities of this rich platform. The final chapter discusses the document-view architecture which many professional applications utilize. This is an extensive topic and is one of the longest chapters in the book. Along the way, you are introduced to the Resource Editor, the Class Wizard,...
